## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Evers'074.

The Evers reference discloses flexible pouches formed of laminate material comprising a straws S and top seals formed by heat seal device 38, wherein the top seals can be considered to be made up of a "first" and "second" seal (i.e. integral with each other).

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Edwards'344 et al.

The Edwards et al. reference discloses flexible pouches formed of laminate material comprising a straws S and top seals formed by heat seal device (38,39), wherein the top seals can be considered to be made up of a "first" and "second" seal (i.e. integral with each other).

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Schmit et al., and Caudle references pertain to other pouch forming systems.

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 4-12 are allowed.
